

Contents

Introduction	i
1 Computer arithmetic	1
1.1 Computing π	12
1.2 On paper	15
2 Zeros of functions	19
2.1 On paper	35
3 Solution of linear systems	39
3.1 Direct Methods	40
3.2 Iterative Methods	47
3.3 On paper	59
4 Matrix eigenvalues	61
4.1 The power method and its variants	62
4.2 On paper	70
5 Interpolation and approximation of functions and data	71
5.1 Lagrange and Newton forms	73
5.2 Barycentric form and splines	81
5.3 On paper	85
6 Numerical quadrature	89
6.1 On paper	93
